**NEW QUESTION: 4**

You plan to create an Azure environment that will contain a root management group and 10 child management groups. Each child management group will contain five Azure subscriptions. You plan to have between 10 and

30 resource groups in each subscription.

You need to design an Azure governance solution. The solution must meet the following requirements:

- \* Use Azure Blueprints to control governance across all the subscriptions and resource groups.
- \* Ensure that Blueprints-based configurations are consistent across all the subscriptions and resource groups.
- \* Minimize the number of blueprint definitions and assignments.

What should you include in the solution? To answer, select the appropriate options in the answer area. NOTE:

Each correct selection is worth one point.
